

**NOTICE TO EXHIBITORS
REGARDING CONSTRUCT DATA VERLAG AG & FAIR GUIDE**

Following NUMEROUS COMPLAINTS received from our exhibitors regarding the “The Exhibitors Fair Guide” DATABASE belonging to the Austrian company CONSTRUCT DATA VERLAG AG, FERIA VALENCIA wishes to inform exhibitors that said company commercialises **on its own behalf** advertising inserts for exhibitors at trade events, organised not only at Feria Valencia but also at other international exhibition centres, in the web portal FAIR GUIDE, created by the above company for that specific purpose.

THERE IS ABSOLUTELY NO RELATIONSHIP BETWEEN FERIA VALENCIA AND CONSTRUCT DATA VERLAG.

The fact that CONSTRUCT DATA VERLAG AG includes in the forms it sends to exhibitors the name of the Fair in which it has participated, in no way implies that FERIA VALENCIA has any type of relationship with CONSTRUCT DATA nor with the services it offers.

The name of the party with which the exhibitor is entering into contract (CONSTRUCT DATA VERLAG) and the cost of the service (€981 per year for 3 years) is included in small print at the end of the form.

Feria Valencia has called on CONSTRUCT DATA VERLAG AG to refrain from using the names of its trade events, in light of the many complaints it has received from its exhibitors who believe that we are associated with the service. Nonetheless, to avoid undesired situations against which Feria Valencia is powerless to take action, we recommend all exhibitors who receive this subscription form in the FAIR GUIDE to carefully read the entire contents before signing it to ensure that you really wish to contract the service on offer.
